

INGENUITY

Clever gardeners used plants to overcome obstacles, and found solutions to allow desired plants to thrive.

Whether with a lack of resources or an abundance of opportunity, many minds came together to create networks and industries to serve the public. Experimentation, invention, and a free economy provides a variety of opportunities to use plants today.

Did you know?

Plants make up a good deal of our clothing, from the fiber to the dye to the rubber of our shoe soles. How many plants are you wearing?
